Ankeet Kumar Sah

Web Developer

"I am a skilled web developer with expertise in both frontend and backend technologies. With a strong foundation in front-end development, I am proficient in HTML, CSS, and JavaScript, and I excel at creating responsive and user-friendly web interfaces. In addition, I possess effective knowledge of backend development, which includes experience with server-side scripting languages, databases, and server management. My combination of skills allows me to develop full-stack web applications, ensuring a seamless user experience from front to back, and I am ready to work beyond call of duty."

EDUCATION

Degree	Name of the Institution	Board/University	% CGPA	Year
B.TECH	G.I.E.T.U	G.I.E.T.U	8.98	2022-2023
12th	NES	ISC	88.25%	2020
10th	NES	ICSE	85%	2018

PROJECTS

All the projects mentioned below had helped me alot and I gain lots of knowledge while working on them.

1. Hotel Management Web App

The Hotel Management App, powered by Node.js and MySQL, simplifies hotel operations for owners and enhances the guest experience. It streamlines check-ins, check-outs, room availability, and billing for owners, saving time. Guests benefit from efficient reservations and personalized services, ensuring a pleasant stay. Completing this task, I also learned some valuable backend development skills.

2. Image Search Web App

A Simple image search app which helped me to know how to extract accurate data with the help of API. This API is provided by Unsplash website.

3. GIF and Sticker Search Web App

A interesting Gif/Sticker search app and the stickers/Gifs can be downloaded, API provided by Giphy website.

4. Weather Web App

An accurate weather report providing app which provides accurate weather of a particular city.

5. Age Calculator Web App

A simple beginner level Age calculator Web app, Which is free from error and provides correct results.

6. Motivational Quotes Provider

Need Some motivation then this App is perfect it provides good Motivational Quotes which can cheer up anyone who is havingbr a bad day.

7. Todo-List Web App

A simple Todo-List App which helped to learn CRUD Operation.
